

# JSC Organizational Structure

## Steering Committee

### Chairman

Dr. Shinichiro Ohgaki

### Vice-chairman

- President of Sewerage Business Management Centre
- President of Japan Environmental Sanitation Center

### Members

- President, Japan Sewage Works Association
- President, Japan Institute of Wastewater Engineering Technology
- Director of Global Environment Department, Japan International Cooperation Agency
- Representative, United Nations Children's Fund Tokyo Office
- President, Japan Education Center of Environmental Sanitation
- Vice-director, Japan Toilet Labo
- Head of Secretariat, Japan Water Forum
- Director, Japan Sewage Works Agency

## Secretariat

Director

Vice-director

Advisor

Sewage Works Expert

On-site Treatment Expert

Rural Development /  
Networking Expert

Survey Staff / Assistants

*JSC Steering Committee consists of domestic partner organizations*

## Scheduled Activities

- Oct. 16, 2009 JSC Establishment (1<sup>st</sup> Steering Committee Meeting)
- Jan. 2010 Follow-up Conference of the International Year of Sanitation (organized by the Government of Japan) – UN University Tokyo, Japan
- Feb. 2010 Japan-Indonesia Sanitation Seminar – Jakarta, Indonesia
- Jun. 2010 4<sup>th</sup> Meeting of Japan-India Joint Working Group on Urban Development – New Delhi, India
- Oct. 2010 Expert Group Meeting on Monitoring of Investments and Results in the Water Sector in Asia and the Pacific – Manila, Philippines
- Sept. 2011 Japan-India Global Partnership - Summit 2011 (Tokyo)
- Oct. 2011 ADBI-JSWA-JSC Regional Workshop on Sanitation (Wastewater & Sludge Management) in the Asia-Pacific (Tokyo)
- (2009-2012 country assessments)  
Indonesia, India, Bhutan, Malaysia, Vietnam

Knowledge Networking for Water Security in the 21st Century

**JSC**  
Japan Sanitation Consortium  
APWF KNOWLEDGEHUB

Solving Sanitation Issues in the Asia-Pacific

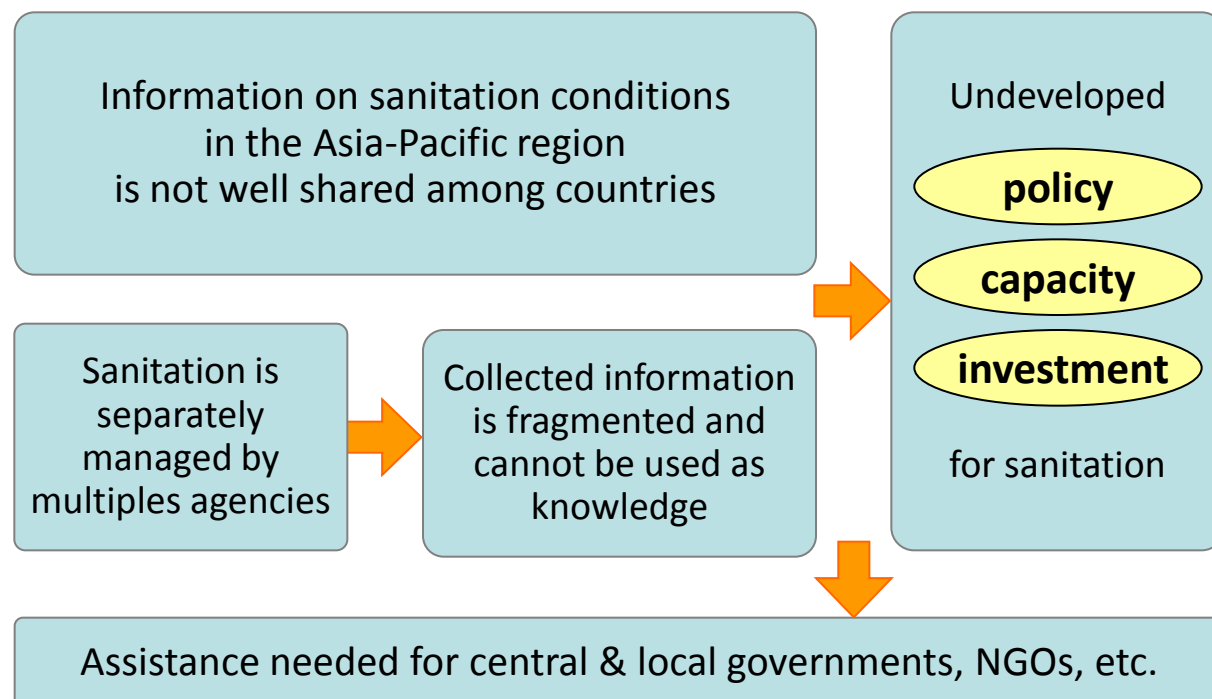

## JSC MEMBER ORGANIZATIONS

- Sewerage Business Management Centre (SBMC)
- Japan Sewage Works Association (JSWA)
- Japan Sewage Works Agency (JS)
- Japan Environmental Sanitation Center (JESC)
- Japan Education Center of Environmental Sanitation (JECES)

## About the APWF's KnowledgeHubs

- The Asia Pacific Water Forum (APWF) is an independent, not-for-profit, nonpartisan and nonpolitical network dedicated to improving sustainable water management. Under the impulsion of APWF was created a network of regional water expert organizations called the *KnowledgeHubs*.
- Each *KnowledgeHub* has a specific priority water topic and focuses on improving water security, promoting knowledge exchange and solutions to solve water issues in the Asia-Pacific region.
- There are currently 17 hubs covering different water knowledge domains. Besides JSC, the two following Japanese organizations are also members of the *KnowledgeHubs* network:
  - Global Center of Excellence for Water Hazard and Risk Management (ICHARM)
  - Institute for Global Environmental Strategies (IGES)
- JSC was endorsed as a new *KnowledgeHub* along with IGES, at the APWF Governing Council held in Singapore in June 2009.

## Sanitation Issues in the Asia-Pacific Region

## Expectations from JSC

### Objectives

- Establish or improve policy and political determination to develop sanitation
- Increase technical competence
- Build capacity in wastewater/sludge management to construct and diffuse:
  - basic sanitation (toilets) with proper wastewater/sludge treatment systems
  - on-site sanitation (including the Packaged Aerated Wastewater Treatment Plant (PAWTP) or johkasou, and night soil/sludge collection & treatment)
  - off-site sanitation (sewerage)

### Tasks

- Network with international organizations in each country of the region to build and improve capacity in sanitation
- Gather, share and spread knowledge information through the *KnowledgeHubs* network and collaboration with international organizations
- Support, advise clients and partners (central & local governments, NGOs, etc.)

### Activities

- Network with each country of the region and organize international seminars:
  - identify sanitation-related institutions in each country; create and manage information networks
  - hold international seminars to spread knowledge and experiences
- Conduct comprehensive country assessments:
  - conduct assessments for sanitation improvement in each country with a team of experts from government, industry and academia
  - advise and assist in operations/projects launched by international donor organizations such as ADB and JICA (project assessment, suitable technology selection, etc.)
- Create and manage a sanitation database for the Asia-Pacific region
- Cooperate with international organizations such as UNICEF, the World Toilet Organization, NGOs, NPOs, etc.
